

SPECIAL BELLS FOR SPECIAL GIFT OCCASIONS

WEDDING BELLS

This Harmony Hollow double bell is symbolic of your marriage. The two bells have different vibrations representing your distinct personalities. Each bell has its own unique tonal qualities that blend together with the other to create harmony. The bells are joined together by a single design that symbolizes the union of two independent people into a harmonious couple. The bells are guaranteed to ring in clear and pure vibrations for you for the next 350 years, amplifying and reflecting your commitment to each other.

Congratulations. May the vibrations from these bells reflect your own happiness and love.

Peace Bell

Church bells ring, calling people together for prayer. Meditation bells help one focus inward and calmly pay attention to life's rhythms. A beautiful bell tone can clear your mind permitting you to sense an inherent peace common in all living things. This bell, rung by the wind, adds the commonality we all share, Mother Nature's pulse, bringing each of us closer to our inner vibration and in tune with our spirit. As each of us becomes more peaceful we contribute one by one to a harmonious future, represented here with the universal image for peace - the Peace dove. Think and focus on peace when Mother Nature rings this bell.

Freedom Bell

The United States of America is the world's oldest democratic republic, deriving its strength from traditions of freedom and equality. The eagle, our majestic symbol of freedom, soars on updrafts of wind, then dives decisively when moved to action. On behalf of all throughout the world who value freedom, equality and democracy, we are steadfast in the vigilant struggle to keep the world a safer place as our nation continues its long tradition of acting decisively in its defense. Let the same wind that carries our glorious eagle aloft in free flight bring to mind thoughts of our precious freedom when you hear it ring this Freedom Bell.

Remembrance Bell

Angels are intermediaries between Heaven and Earth, symbolizing our souls' passage to the starry heavens, and stars represent spirits of those who have passed on, shimmering in the night sky. As Mother Nature's breath, the wind, gives ringing voice to this Remembrance Bell, may it bring to mind not only the spirits who have ascended to the evening galaxies but also the timeless continuities of life flowing from our ancestors through us to our descendants.

ANNIVERSARY BELL

Most cultures worldwide see the heart as the true center of the self. Moreover, the double heart is symbolic of ongoing relationships and the opportunity, over many years, for one soul to evolve in the presence of another.

Consequently, in like company there exists a shared heartbeat, the fundamental tempo for poetry, song, music, and dance. Its rhythm insists that life be led at a soulmaking level in a place filled with enormous joy and inevitable sorrow. May this bell sound that heartbeat here, now, and forever.

Housewarming Bell

The term *housewarming* comes from the old custom of hanging up a pot-hook. It was our ancestors' gesture which preceded their igniting a central fire for the light and for warmth, thereby creating the heart of the home. Hanging up this HOUSEWARMING BELL is intended to do the same, to transform a house into a home, by establishing harmony between occupant and dwelling through repetitive, peaceful, sacred sound. With each and every ring a positive connection is amplified.

As your sense of place is echoed in the bronze of the bell, the heart of your home will grow stronger. May a song of gratitude be carried on the wind.

Friendship Bell

This bell rings with the joy and laughter of friendship. Like an outstretched hand, which in times past signified an absence of weapons, it offers the peace and safety of a trusted relationship. And as with friendship, either a gentle breeze or gale force wind may call forth its sound; or it may rest in silence, waiting for the perfect moment to toll its unique support.

Souls unite in sacred sound, and the FRIENDSHIP Bell's purpose is to carry this union across space and time into the present. May our friendship be remembered in its ringing.

CHRISTMAS BELL

"EVERY TIME A BELL RINGS
AN ANGEL GETS ITS WINGS"
